

## **Preventative Maintenance: Morning Vehicle Inspection Checklist**

At Northeastern Bus Rebuilders (NEBR), we understand that consistent, proactive maintenance is crucial to fleet reliability and safety. This daily inspection checklist is designed to help your crew identify potential issues early, ensuring optimal performance and minimizing downtime.

### **Daily Inspection Checklist**

- ☐ Check for lean using a side profile photo or inclinometer
- ☐ Listen for air hissing while the bus idles
- ☐ Use a laser thermometer on all four hubs
- ☐ Confirm brake push-rod stroke
- ☐ Look for new warning lights during key-on
- ☐ Check HVAC output at all vents
- ☐ Scan for unusual smells
- ☐ Look under the bus for fresh fluid leaks
